& Residential
Solutions**

Plumbing Leak Detection and Water Management Systems

When a leak is detected, the alarm sounds, and the system automatically shuts off the water supply to a single appliance

Water Heaters & Water Tanks

RS-094
Water Heaters, Water Tanks. Commercial-grade. Leak detection and automatic shut-off. With receiver box. Can be integrated with a security system or appropriate relay.

Power	Water Sensor	Shut-Off
Hard-Wired or Wall Plug	Disc with Metal Plate	Valve, 1/2", 3/4", 1" or 1-1/4"

RS-074-3/4
Water Heaters. Simple installation, do it yourself. 9v battery-powered. Self-cleaning valve.

Power	Water Sensor	Shut-Off
Battery	Sensor with 10' Cable	Valve, 3/4"

Washing Machines

RS-090-E
Washing Machines. Commercial-grade. With integrated outlet box and built-in water hammer protection. Leak detection and automatic shut-off. Includes 4 mounting straps.

Power	Water Sensor	Shut-Off
Wall Plug	Disc with Metal Plate	Built-in Leak Detection Receiver

RS-070
Washing Machines. With receiver (control/alarm) box. Simple installation.

Power	Water Sensor	Shut-Off
Wall Plug	Disc with Metal Plate	(2) Valves Hot & Cold Water

Hose-Fed Appliances

RS-092-1/2
Hose-Fed Appliances. Leak detection and automatic shut-off. With receiver box. Can be integrated with a security system or appropriate relay.

Power	Water Sensor	Shut-Off
Hard-Wired or Wall Plug	10' Rope	Valve, 1/2"

Water Alarm Systems

Alarm sounds when the sensor comes in contact with as little as 1/16" of any non-flammable conductive liquid, such as water.

RS-095	9v Battery	
RS-096	Wall Plug	With receiver box
	Hard-Wired	

Water Main Shut-Off System

Full facility water main shut off protection
Alarm sounds and the main water supply line is automatically shut off to a room, floor, etc. Supports multiple sensors to extend your monitoring range.

RS-080 Water Mains. Heavy-duty, commercial-grade. Leak detection and automatic shut-off. With receiver box.

Power	Water Sensor	Shut-Off Valve Type	
Hard-Wired or Wall Plug	Disc with Metal Plate	Ball 3/4", 1", 1-1/4", 1-1/2" or 2"	Butterfly 2-1/2", 3" or 4"

Accessories

Water Sensing Discs
Additional sensors available with 8', 25', 50', and 100' cable lengths. Units ship with flying lead. Item # RSA-101-XXX, see website for ordering

Sensing Rope
Ideal for use with low tanks, or for room perimeter and sub-floor leak detection applications. Item # RSA-175-810

Auto Dialer Keypad Panel
Low cost panel sends automatic phone alerts when the system identifies a fault. Recorded message can trigger up to 9 phone numbers. Item # RSA-600-003

Plumbing leak detection and water management systems may make you eligible for an insurance discount. Contact your provider for details.

SMART Leak Protection Systems, Wireless

Install a system that offers the best protection for your building with a mix of point-of-contact and flow sensors, multiple shut-off points and a subscription-free App.

Manage multiple leak detection points:

- Water heaters
- Toilets
- Washing machines
- Sinks
- Showers & Tubs
- and More

Battery-powered hub and actuator

Detection and valve closure operates on an independent wireless system

Built-in scalability

- Manage multiple systems and devices through a single login on your iOS or Android mobile device
- Support up to 64 wireless devices (sensors, actuators, wireless signal repeaters)

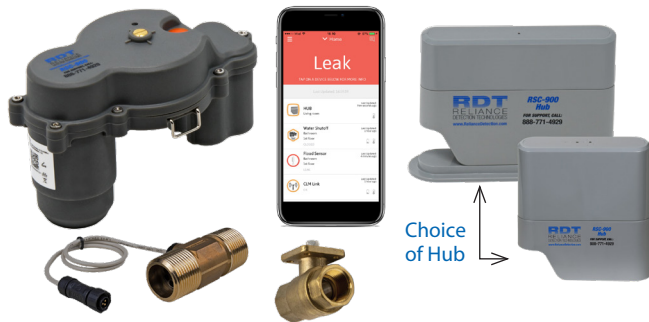

RSC-900-AW

Leak Detection, Monitor, Automatic Shut-Off.

Supports multiple IP68-rated actuators for hot and cold water lines. Monitor near-freezing temperatures that could cause burst pipes. Indoor/outdoor use.

Shut-Off	Hub	Water Sensors	Monitor
Valve, via the App	Ethernet or WiFi	(2) Sensors	Subscription-Free App

RSC-900-F

Flow Sensor. View consumption trends on the App.

Shut-Off	Hub	Water Sensor	Monitor
Valve, via the App	Ethernet or WiFi	(1) Valve	Subscription-Free App

RSC-900-W

Monitor, No Shut-Off.

Perfect for applications where you do not want to interrupt water flow.

Shut-Off	Hub	Water Sensors	Monitor
n/a	Ethernet or WiFi	(2) Sensors	Subscription-Free App
